CAREERLINK POSTS ITS BEST ANNUAL SALES EVER IN 2009

DALLAS- January 5, 2010- CareerLink posted the highest sales numbers since it was founded in February 2000. With sales topping \$14 million in 2009, CareerLink continued to thrive after a record-breaking first quarter. As projected, CareerLink posted revenue of \$14.6 million in 2009 breaking its record sales of \$8.6 million in 2006.

CareerLink's leadership attributes its solid numbers to the record low interest rates throughout the year. These low interest rates drove a mortgage refinancing boom at many of CareerLink's banking clients. The boom required the need for high numbers of temporary and direct-hire staff in order to meet demand in mortgage applications. Throughout the year, as mortgage rates continued to fluctuate, CareerLink was able to provide its banking clients with the additional staff they required. Additionally, these clients see the surge continuing into the Summer of 2010.

CareerLink also benefited from sales in the Healthcare sector throughout 2009. CareerLink launched an allied training division, HealthLinkRx Institute, in 3Q 2009.

After a record breaking year, CareerLink plans to continue to focus on staffing for its banking clients and will increase its focus on the Healthcare sector in 2010.
